EASY SOLUTIONS
FOR
YOUR NEEDS

Introduction

With **15 years** experience as a logistics service provider, **ARound** progress as Organizer and Freight Transport, sea and land, both in conventional and in container, with particular mastership of the **Mediterranean and Middle East Area**.

ARound guarantee to all its customers a single contact and simple solutions to implement supply chain best fits their needs.

To its customers, **ARound** offers transport and logistics solutions adapted to each of them, both exports and imports.

Services

In this performance framework, acquired skills in France and all the European areas during the last **15 years** allow us to offer a large range of services as such as:

- ✓ **Combined land-sea Transport (conventional ro-ro shipping or 20 and 40 feet standard or high cube containers).**
- ✓ **Conventional Transport in jumbo trailer (120 m3).**
- ✓ **Conventional Transport in standard trailer with the possibility of triangulation.**
- ✓ **Tailored Shuttles Service:**
Round trip for distribution on carriers or sheeted trucks throughout Europe even in double crew traction service in one-way or round trip.
- ✓ **Oversized and Heavy Loads:**
A wide range of rolling stock with permanent licenses in most of Europe as bare that **mafi or flatracks for shipping or flatbed and low loader trailers, allow us to transport all types of goods, regardless of its width, length, height and weight.**

Our expertise allows us to transport different types of goods:

- ✓ **Industrial and dry food** on pallets, big bags, crates, bundles, coils.
- ✓ **Equipment and industrial goods even oversized.**
- ✓ **Wooden barrels.**
- ✓ **Cellulose and steel coils.**
- ✓ **Raw materials, semi-products and high value-added finished products (solar panels).**
- ✓ **Non-hazardous chemicals and ADR class goods.**

Sea shipping

Thanks to its many maritime providers **ARound** offers to our customers daily departures to the main ports of the Mediterranean and Europe for all destinations in the World.

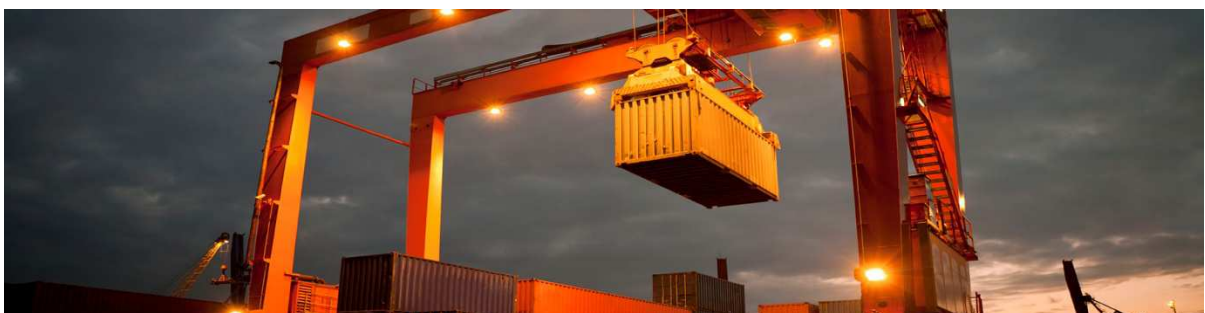

ARound has, through its providers, platforms dedicated to the management of containers and goods in the most important ports in Europe and in the Mediterranean Basin like as **Marseille, Genova, La Spezia, Ravenna, Venice, Trieste, Koper, Patras, Corinth, Ashdod, Tangier, La Valletta, Istanbul, Le Havre, Antwerp and Gdansk.**

At disposal of our customers a wide choice of materials for shipping:

- ✓ **Containers 20 and 40 feet standard or high cube;**
- ✓ **Special equipment like as flat racks, open tops and reefers;**
- ✓ **Mafi and equipments for oversized cargo;**
- ✓ **Customized supply chain patterns;**
- ✓ **The mastery of regulations in each destination's country;**
- ✓ **A choice of multiple solutions through a carefully selected partners network.**

As well as a full range of equipment for managing goods as **forklifts for small and large tonnage, straddle carriers and cranes.**

Road transport

Both in national and international markets we develop the most suitable transport solutions to our customers and their products, be they in **reels, crates, pallets, bundles, machineries, big bags, barrels and oversized equipments**.

A permanent choice of carefully selected providers allows us to offer to our customers a suitable pattern to each of their needs.

A wide range of equipment is available to our customers: **curtain sided trailers, large volume jumbo trailers, refrigerated trailers, box trailers, flatbed and low loader trailers for heavy and oversized transport**.

Tailored shuttle service:

Round trip for distribution on carriers throughout Europe even in double crew and one-way or round trip traction service.

Oversized and Heavy Loads:

A wide range of rolling stock with permanent licenses in most of Europe as bare that **flatbed and low loader trailers, allow us to transport all types of goods, regardless of its width, length, height and weight**.

Multimode transport road and sea

Mix of land and maritime transport to give to our customers even more solutions for the delivery of their goods in the greater reliability.

ARound has, through its providers, platforms dedicated to the management of containers and goods, equipped with **forklifts for small and large tonnage, straddle carriers, cranes**, in the most important ports in Europe and the Mediterranean Basin: **Marseille, Genova, La Spezia, Venice, Trieste, Koper, Patras, Corinth, Ashdod, Tangier, Istanbul, Le Havre, Antwerp, Gdansk**.
